**Judson Memorial Church**, 55 Washington Square South, NYC

Speakers:

**Scott Ritter**, former US weapons inspector, author of *Waging Peace: The Art of War for the Antiwar Movement* and *Target Iran: The Truth About the White House's Plans for Regime Change*

While people in the US were voting for President Obama, a US air strike on an Afghan wedding party killed 34 civilians. On November 5, another killed 7 civilians. US drones daily cross the border into Pakistan, where scores of civilians have been bombed.

Obama, the "anti-war" candidate wants to leave 50 to 80,000 troops in Iraq, and move more combat brigades to Afghanistan. He promises to increase the US military by 92,000, ready to project American empire further on the lives of kids in high school now. Obama proposed sending drones and special forces into Pakistan - a sovereign country - and the Bush regime secretly began attacks on Pakistan in July, which have killed scores of civilians, as part of the Bush doctrine of pre-emptive war.

Participate in an intensive look at what to expect under Obama, what must be yet stopped under Bush, and begin making plans immediately to build a movement to stop the crimes done by our government in our name.
